PHYSICIAN'S REFERRAL FORM
HEALTH AND PERFORMANCE EVALUATION AND ASSESSMENT
FOR LAW ENFORCEMENT

Dear Doctor:

Your patient _____ is scheduled to participate in a health and motor fitness evaluation and assessment at Bergen County Law and Public Safety Institute. The tests are designed to evaluate the individual's health and state of physical readiness prior to entering the Academy's Basic Training Program.

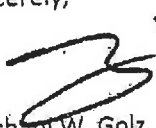

The assessment is separated into two test batteries. The first test is referred to as the Health Fitness Test Battery. Health fitness is a concept that includes those fitness components that can prevent disease and promote health. The requirements will include testing to determine general cardiovascular-respiratory endurance, muscle strength and endurance of the abdominal and lower back musculature, flexibility of the upper and lower back and hamstring musculature and body composition (the ratio of lean body weight to fat weight).

The second test battery will be administered to determine the individual's performance or "Motor Fitness" as it specifically related to the law enforcement officers job function. The motor fitness requirements will include testing specific upper and lower body musculature strength, speed, endurance, and balance.

Please identify whether or not this individual is fit to participate in each test event by checking off YES OR NO on the attached sheet.

NOTE: The assessment will NOT be performed on this individual if this form is not filled out by you and returned to me as soon as possible.

Sincerely,

 D.C.
Michael W. Golz, D.C.

PHYSICAL FITNESS EXAMINATION RELEASE

I understand that the selection process for the appointment of the position of Police Officer includes participation in a physical fitness examination that may involve physical exertion. I acknowledge that in my allowing my participation, Michael Golz, DC, will rely upon my physician's representation that I am fit for such participation.
